# Problem Statement

Design a UI and a backend system for a new enterprise application that **Flipkart** is launching, **FlipFit**. **Flipkart** is partnering up with gyms across Bangalore to enter into the fitness space.

## Project Goals

User friendly booking system for gym slots

Gym owner registration to facilitate facility setup

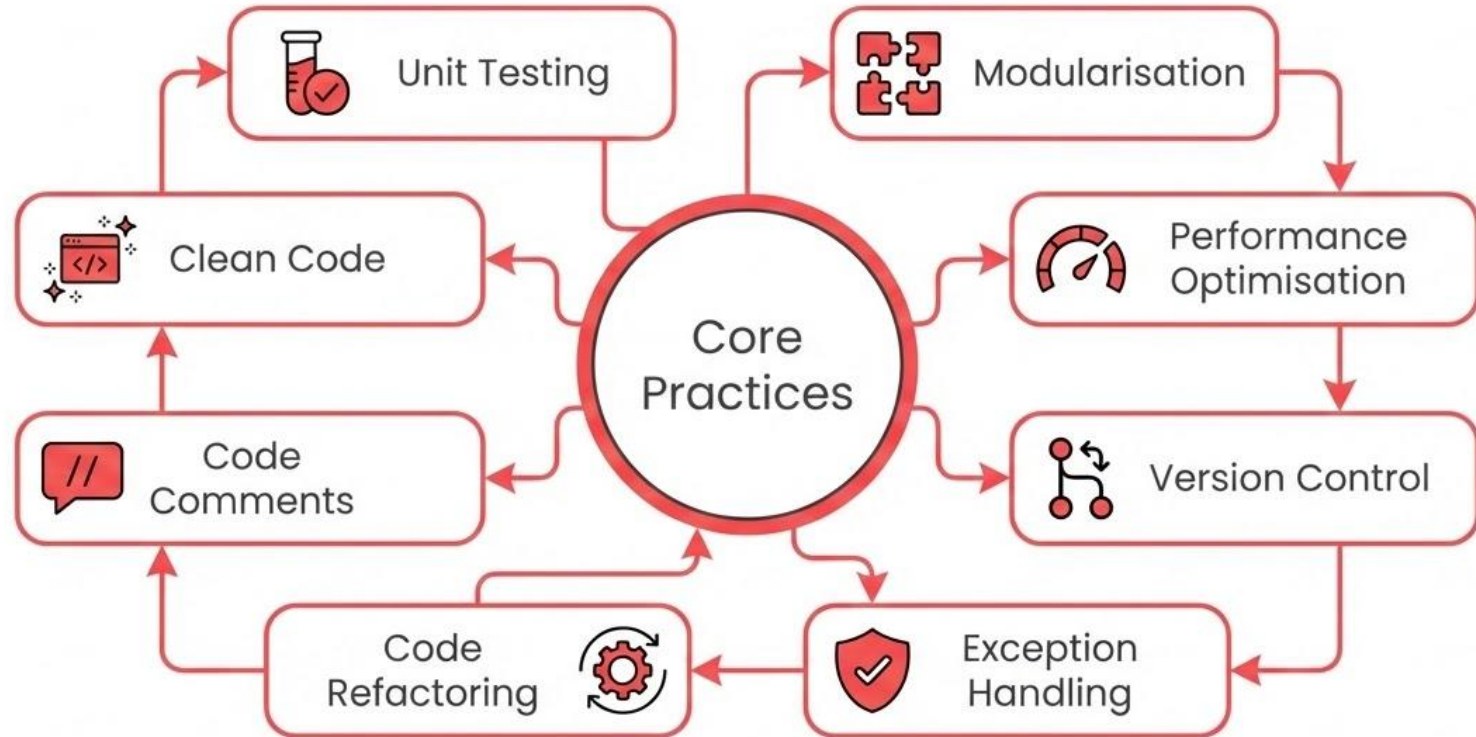

Real time visibility of gym slots in specific area

Customisation options for gym owners to define slots

# Engineering Practices

# Tech Stack

## Core & Build

**Java 17**

## Development & Data

**IDE:** Spring Tool Suite (STS) /  
Visual Studio Code / Eclipse

**Database:** SQL  
(JDBC  
implementation)

## Documentation & Design

**Documentation:** UML  
(StarUML/Draw.io)
